ABSTRACT

The North Carolina Writing Assessment, which is part of the state's End-of-Grade testing program, requires students in grades 4 and 7 to write essays in response to a standardized prompt. This report contains results for the Wake County Public School System (WCPSS). Fourth grade writing assessment scores across North Carolina rose in 1999, and in the WCPSS, the scores at grade 4 were higher than the statewide scores. However, WCPSS scores decreased 3 percentage points from 1998. Scores for seventh grade students rose dramatically, both statewide and in the WCPSS. One area in which performance declined, both in Wake County and in the state as a whole, was that of conventions, an area that assesses sentence formation, word usage, and mechanics. Information is provided about scoring procedures, interpreting writing assessment results, and results for individual schools. Attachments contain summary reports for grades 4 and 7. (SLD)

N.C. WRITING ASSESSMENT

The Writing Assessment is part of the N.C. End-of-Grade testing program. The 50-minute assessment requires students to write an essay in response to a standardized prompt.

Students in grades 4 and 7 are required to take the State Writing Assessment Test. Local school systems have the option of testing students in other grades with a prompt provided by the state. In 1996 and 1997, WCPSS opted to test grade 8 students. In 1999, WCPSS tested grade 6 students. Grade 6 scores were not available for this report.

PROMPTS

The 1999 North Carolina Writing Assessment was administered on March 2nd and 9th, requiring responses to the following prompts:

- Grade 4 (personal narrative): Think about a time when something happened that made you very happy. Write a story about what happened that made you very happy.
- Grade 7 (expository clarification): Think about your favorite day of the week. Name your favorite day of the week and explain why it is your favorite.

RESULTS OVERVIEW

Fourth grade writing assessment scores across North Carolina rose in 1999, and in the Wake County Public School System (WCPSS), the scores at grade 4 were higher than the statewide scores. However, WCPSS scores decreased 3 percentage points from 1998. In 1999, 61.8% of WCPSS fourth grade students scored 2.5 or higher, while statewide the percentage was 55.2%.

Writing scores fluctuate based upon the type of writing and subject matter of the prompt. In 1997 and 1999, the type of writing tested in fourth grade was personal narrative. In 1998, the type of writing was imaginative narrative. If scores on the personal narratives in 1997 and 1999 are compared, WCPSS scores rose 15.4 points (from 46.4% to 61.8%) while statewide scores were rising 6.6 points (from 48.6% to 55.2%).

Scores for seventh grade students rose dramatically, both statewide and in our school district. In the WCPSS, 73.1% scored 2.5 or above, up from 60.6% last year. For North Carolina students, 70.4% achieved passing scores of 2.5 or above for this year, an increase from 62.5% in 1998. This 12.5 percentage point increase for WCPSS means that our district's students performed better than students statewide for the first time in four years of seventh grade writing assessment.

Conventions scores which assess sentence formation, word usage, and mechanics such as capitalization and punctuation fell dramatically from the prior year in fourth grade for both WCPSS and statewide. The percent of students receiving a “++” fell from 76.2% in 1998 to 39.8% in 1999 in Wake County and from 68.7% to 35.6% statewide. Smaller declines in the percentage of “++” scores occurred in seventh grade, falling from 94.4% to 89.9% in WCPSS and from 93.0% to 77.5% statewide. Significant statewide declines in conventions scores are unlikely to reflect changes in curriculum or instruction. Explanations that will be investigated may involve changes in scoring contractors or criteria.

SCORING PROCEDURES

Students' essays are scored holistically, with scores ranging from 1 to 4 and corresponding to skill levels defined below:

Score point 4: The response exhibits a strong command of a particular style of writing.

Score point 3: The response exhibits a reasonable command of a particular style of writing.

Score point 2: The response exhibits a weak command of a particular style of writing.

Score point 1: The response exhibits a lack of command of a particular style of writing.

Some tests may be nonscorable (NS) if they are blank, illegible, do not address the topic, or are otherwise unscorable. Two independent readers score each essay. The four characteristics readers look for in an essay are: main idea, supporting details, organization, and coherence. Discrepant scores are averaged.

Scores of 2.5 or greater are considered demonstrative of appropriate writing skills. Students also receive from each reader a "conventions" score that indicates the level of proficiency in the areas of sentence formation, usage, and mechanics, (spelling, punctuation, and capitalization). A conventions rating is either a "+" or a "-". A "+" indicates that the writer exhibited a reasonable and acceptable level of proficiency in sentence formation, usage, and mechanics. A "-" indicates that the writer does not exhibit a reasonable and acceptable level of proficiency in sentence formation, usage, and mechanics. Actual score reports contain either two plus or minus signs which indicate agreement between both readers or a plus and a minus sign, which indicate that both readers did not agree on the conventions score.

Student essays are scored based on state standards for writing. Standards emphasized by WCPSS may differ somewhat from state standards. Generally, emphasis in the classroom may be directed towards a much wider scope of activities and skills than the NC Writing Assessment.

INTERPRETING WRITING ASSESSMENT RESULTS

Writing Assessment results should be interpreted carefully. Each year, the modes of writing and/or the specific prompts change. Page 4 contains the list of writing prompts for the past several years. While prompts are field tested, some prompts are still more difficult or more engaging than others, which can cause scores to vary. The attachments are detailed printouts from the state's scoring contractor showing performance by various categories, e.g., gender.

WCPSS Versus the State

One way to examine WCPSS scores is to determine whether WCPSS students score above the state average, and, if so, by how much from year to year. Another question is whether *changes* in WCPSS performance from year to year were greater than those seen in the state. A third approach is to compare changes within the type of writing (usually a two-year cycle) relative to changes seen in the state.

Individual Schools versus WCPSS or the State

School performance can best be interpreted in light of WCPSS performance overall (as well as the state). Just as in comparisons of WCPSS to the state, schools should ask whether their performance, relative to these larger populations, is similar and showing the same trends. In other words, if the percentage of students in the district scoring at 2.5 or better improved 2% between 1998 and 1999, did the school percentage improve at the same rate, or at a higher or lower rate? Schools that show different trends than the system showed should consider why. This type of comparison would be appropriate for elementary and middle schools.

Individual Student Scores

Individual student scores are difficult to interpret; both E&R and DPI discourage overuse of the individual scores. A single test score should not be used to judge a student's overall ability in writing or any other skill area. This score should be considered as only one example of a student's work and be balanced against other samples of writing generated through classroom activities. Student performance on different prompts may vary quite a bit. Students' writing scores measure their performance on a specific set of standards and criteria. If students do not follow directions in the prompt exactly, or write a different type of essay than was requested, it will have a major impact on their score. If a student scores lower than expected on an essay, look over the response to the prompt prior to deciding whether further action is needed. A careful examination of a collection of an individual student's writing samples may reveal that the student needs practice in responding to different kinds of writing style prompts or that one particular kind of prompt needs to be the focus of additional classroom instruction.

RESULTS SUMMARY

Grade 4 Results

The percentage of Wake County grade 4 students scoring 2.5 or above decreased this year from 64.8% in 1998 to 61.8% in 1999. The state's percentage of students scoring 2.5 or above increased from 51.7% in 1998 to 55.2% in 1999. The percentage of WCPSS essays rated a 4 increased, and the percentage scoring 1.0 or 1.5 declined; however, there were decreases at the 3.5, 3.0, and 2.5 score levels and an increase in the percentage of 2.0 scores. WCPSS conventions scores also decreased. This year, 39.8% of WCPSS grade 4 students received a “++,” this is down 36.4 percentage points from the 1998 level of 76.2%. The percentage of grade 4 students across the state receiving a “++” conventions score dropped from 68.7% in 1998 to 35.6% in 1999 for a decrease of 33.1 percentage points.

Grade 7 Results

Almost three-fourths (73.1%) of WCPSS grade 7 students' essays received scores of 2.5 or above in 1999, compared with 60.6% last year, an increase of 12.5 percentage points. The state experienced a 7.9% increase in scores from 62.5% in 1998 to 70.4% in 1999. The number of grade 7 students across the state receiving a “++” conventions score decreased 15.5 percentage points from 93.0% in 1998 to 77.5% in 1999. WCPSS grade 7 students receiving a “++” conventions score also decreased from 94.4% in 1998 to 89.9% in 1999.

Attached tables show scores for three years for all schools with students in grades 4 and 7.

c: Board of Education, Cabinet, ISD Directors, Principals, C&I Staff, E&R Staff, Media Specialists, Test Coordinators

Writing Styles Tested in North Carolina from 1996 to 1999

Year	Grade	Type	Prompt
1998-99	4	Personal Narrative	Think about a time when something happened that made you very happy. Write a story about what happened that made you very happy.
	6	Expository Clarification	Think about a building that you enjoy spending time in or visiting. Name the building and explain why you enjoy spending time in it or visiting it.
	7	Expository Clarification	Think about your favorite day of the week. Name your favorite day of the week and explain why it is your favorite.
1997-98	4	Imaginative Narrative	One morning you wake up and you are six inches tall. Write a story about what happens next.
	7	Descriptive	Think about a place where people go to have fun. It can be outdoors, a store, a relative's, or any place where people go. Describe the place so that someone reading your paper could picture it.
1996-97	8	Expository: Persuasive	Your class has decided to take a trip to a foreign country to learn more about its culture. The teacher is asking for written suggestions about a country to visit. Write a letter to the teacher. Persuade the teacher that the country you are recommending to visit is the suggestion that is best.
	4	Personal Narrative	Name a time that you were very surprised. Write a story about what happened that surprised you.
	7	Expository: Clarification	Think about the kind of weather you like best. Name the kind of weather and explain why you like this kind of weather best.
	8	Expository: Clarification	Think about the kind of weather you like best. Name the kind of weather and explain why you like this kind of weather best.
1995-96	4	Imaginative Narrative	One day you are walking home from school. You see a large, dirty glass bottle lying next to the road. You pick up the bottle and remove the top. Something surprising happens. Write a story about what happens.
	7	Expository: Point-of-view (opinion)	Take a position on whether students should be required to take physical education (PE) in school. State your position and explain why you think students should or should not be required to take physical education in school.
	8	Expository: Persuasive	Your local school board is considering a new policy that would require all public school students to wear uniforms just like students in some private schools. The school board feels this would help to improve grades. Write a letter to the members of your school board trying to convince them to accept your view on whether public school students should or should not be required to wear school uniforms.
